

July 2016

CORVETTE CLUB OF KANSAS CITY

HiBeams

Next CCKC meeting

Wednesday, August 17th

Uncle Buck's Grill

Bass Pro Shop

12051 Bass Pro Drive

Olathe, KS 66061

Room opens at 5:00 and business meeting starts at 7:00. Come early enough to get your food order in before 6:30 and dine with the group.

August Birthdays

2 - Ken Lauderdale
4 - Ardis Jeffer
6 - John Hilbert
6 - David Wood
7 - Harold Benskin
9 - Kal Dulker
12 - Pamela Potter
14 - Judy Nelson
14 - Rick Eisberg
15 - Art Luhrs
17 - Becky Saunders
17 - Susan Ehlers
18 - Alice Anne Bennett
18 - Lamar Williamson
19 - Bob Rafie
23 - Chris Shinnors
24 - Kyle Burris
24 - Jim Juliff

28 - Ellen Rose

31 - Mike Miller

August Anniversaries

7 - Cynthia & Arnie Sdano
8 - Patti & Roland Norris
10 - Marie & Jim Burns
10 - Chris & Steven Shinnors
16 - Janice & Lee Burkhead
17 - Anne & Chuck Abbot
17 - Anita & Jack Pisano
20 - Becky & Larry Saunders
20 - Suzanne & Jerry Stanton
24 - Mary & Ray Newell
25 - Christine & John Hilbert
26 - Donna & John Stevenson
27 - Vicki & Gene Sinkler
29 - Barbara & John Southerland
30 - Sharon & Frank Papish

Guest Speaker Schedule:

AUGUST-Mid America Motorworks (Mike Yager). MAM is from Effingham, Illinois. This company carries and supplies replacement parts for years of Corvette! Mid America Motorworks will talk about their company and the benefits of purchasing from them. Plus, they will discuss their HUGE annual show called Corvette FunFest, which is in mid-September this year.

SEPTEMBER-NCRS (Harry Ledgerwood). Harry is the President of the Kansas City chapter of the National Corvette Restorer's Society. He will be giving a presentation about what the NCRS means to a Corvette owner, how you can join and how being a member of both the CCKC and the NCRS is beneficial.

OCTOBER-to be determined. We are working on getting someone from the National Corvette Museum to come to speak.

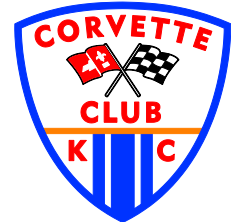

July Activities:

Fourth of July Parade

Twenty-eight CCKC cars participated in this year's Lenexa Parade and our club took second place. Many attended lunch at Zarda's following the parade. Thanks to the Kearns and Newells for hosting this event.

Great Des Moines Escape

The Sdanos hosted a cruise to Des Moines, Iowa that started on Friday, 7/15 and concluded Sunday 7/17. Six club cars and 12 members participated. Arnie Sdano provided the following summary of the trip:

Great Des Moines Escape

Friday – drive to Des Moines:

- Visit Des Moines Art Center
- Self-Guided tour of Salisbury House, a 15th century castle rebuilt in Des Moines, one that Shakespeare performed his plays under the roof of the great hall
- Decent BBQ for dinner

Saturday – tour Des Moines:

- Guided tour of the Iowa Capital Building
- Vicki and Cynthia visit the Botanical Garden
- Rest of us hit the streets to see the Historic East Village for sightseeing/shopping
- Lunch – at Zombie Burger
- Visit the State Historical Museum
- Strudel Haus for dinner

Sunday – on the road again:

- Tour the “Covered Bridges of Madison County”
- Tour John Wayne birth place and museum
- Lunch at the historic Northside Cafe
- Hit a Winery, one more covered bridge to see, and gather Sweet Corn at a roadside stand

- Scenic drive to Bethany Missouri, Jerry did a little impromptu Quail hunt along the way
- Dinner at the TOOT-TOOT restaurant

Hope that the Burkheads, Keiths, Levensons, Sinklers, and Streeters had as much fun as Cynthia and Arnie did in leading the Great Des Moines Escape.

Culver's Cruise 7/26

The best showing to date this year with 37 members (and 24 cars) present. We enjoyed decent weather and dinner. Thanks to Bob Henn and Henry Ninstil for hosting this monthly event.

**July Minutes:**

On Wednesday, July 20, 2016 at 7:00PM, the CCKC meeting held at Uncle Buck's/Bass Pro Shop was called to order by Vice President Steve Garrett. There were approximately 60 members and guests in attendance.

Barb Kearns reported that our club took second place in the Lenexa 4th of July parade. We had 28 cars in the parade. The Keith's sons carried our club banner. Barb expressed thanks to the Newells for hosting and providing donuts and coffee and also to those who were in the parade and came to Zarda afterwards.

Membership: Chris Shinnars reported that we now have 204 members; four new members are in attendance tonight. Edward and Teddy Farnsworth, 2011 Grand Sport convertible.

Rob and Laura Howard, 2008 red coupe.

Justin Eager, 2002 coupe.

David Wood has a 1989 that he is restoring.

New member, Justin Eager, offered to set up a tour of the Fairfax plant and would need to know how many would like to attend.

Secretary: Julie Dailey obtained approval of the June 2016 minutes as published in the Hi Beams. She also read the minutes of the June EC meeting.

Treasurer: John Southerland reported a quiet month with receipts of \$414 and no expenses. Our cash balance on hand increased by this amount. Motion to accept the

financial report was approved.

John mailed letters to CCKC members who have not come to a meeting for the past six months to encourage them to attend; he provided them with an event calendar and a list of our monthly speakers.

NCM (National Corvette Museum): Ambassador Adam Hoehn reported that there was a ribbon cutting for the Holley Control Tower at NCM. There will be a roundtable discussion at the NCM Anniversary Event on September 2-4. Adam said that anyone who wants to have a portion of their Amazon purchases donated to NCM, go to Smile.Amazon.com and a 1/2% will go to your choice of charity.

Activities: Kathy Denning reports that our next club event is Tuesday July 26th at Culver's from 5-8pm. We get 25% off our meals and drinks are free.

Chuck Levenson talked about the Summers End event in Rogers, Arkansas. Joe Campbell and Chuck will be leading our group. There will be a side trip to Crystal Bridges Museum and he will need a headcount of who plans to attend. Friday there will be a cookout and live music; the car show is on August 27. The banquet is Saturday night. At this time, there are five rooms left at the discounted rate. Call the Hilton directly; the discounted rate is \$91 a night.

Janice Burkhead: The Zona Rosa show is on September 10 and it is the fifth anniversary of our Zona Rosa show. We need our members to register. There will be a barbecue the

night before. We are in need of donations for the raffle. There will be a fashion show for the ladies which includes brunch and a goodie bag.

Jerry Keith says he needs 12 volunteers for Zona Rosa parking detail. The early shift will help set up tents. Registration closes at 10 and that's when parking detail ends.

Lee Burkhead reports that the trophies will be acrylic this year, pending EC approval.

Kathy Denning will put together an event at RC's in September as well as possibly an EC meeting at RC's.

Todd Ford said that to get information about the Grand Prix event on October 8-9, 2016, go to their website at <http://www.lggpr.org/> Registration forms can be downloaded from the website. The driving event slots will get booked up fairly quickly. The Corvette is this year's featured car at the car show. The Grand Prix event is in Garnett Kansas, 30 miles south of Ottawa. Members who are going could possibly caravan down together.

Steve Garrett urges those of us who were on Facebook to share CCKC events on our Facebook pages to get the word out.

CCKC does not have a Twitter account yet. New member David Wood has volunteered to set up a Twitter account for the club.

Steve reminded us that if we have an event that we want to

put together, contact Kathy so it can be put on the calendar. The more events we have, the better.

Old business: Dianne Keith reports that enough raffle tickets have been sold and the cruise will happen. Raffle tickets are \$10, the winner will receive \$1000 towards an ocean view cabin on Norwegian cruise to the Bahamas. Proceeds go to our charity. The drawing will be held at the Zona Rosa car show.

Janice Burkhead noted that the email address on CCKC cards is old but it is still a functional address.

Cynthia Sdano said the turnout for the COR car show was good and there were several winners from our club.

There was no guest speaker tonight. Next month's speaker is Mike Yager from MAM. In September, Harry Ledgerwood from NCRS will speak. October's speaker is still in progress.

Arnie Sdano inquired about what to do with our (insurance) sign-in sheets; after a year, turn them over to Barb Kearns.

The weekend event to Des Moines had six cars and 12 people in attendance. It went well and they all had fun.

Meeting was adjourned at 8 PM.

Respectfully submitted,
Julie B. Dailey, EA

Tech Talk/News – Jeff Moss:

A great deal of data is available on modern tire sidewalls including information on speed, temperature and traction ratings as well as longevity and manufacture date which can be important when making decisions regarding repairs, etc., especially on cars that often do not see significant annual mileage. The following information comes from the two referenced sources.^{1,2}

Here's how to decode the information:

- 1) "245": The numbers preceding the slash indicate the distance, in millimeters, across the widest point of the tire called section width (245mm, or 9.65 inches, in this case) when mounted on a wheel of specified width. Often listed before this number are letters that loosely signify the kind of duty for which the tire was designed: "P" stands for "p-metric" and is generally used on passenger cars, "LT" indicates light-truck duty, and "T" is for a temporary spare.
- 2) "40": This two-digit number is the aspect ratio, or profile, of the sidewall. This tire's sidewall height is 40 percent of the tire's width, which equates to 98mm, or 3.86 inches. The lower the number, the shorter the sidewall. An exception is Michelin PAX tires, where this number signifies the overall diameter of the tire in millimeters.

- 3) "R": This letter indicates radial tire construction; nearly all tires sold today are of this variety. Other constructions are "D" for bias-ply tires and "B" for belted. A preceding "Z" is simply a reference to an outdated and vague speed rating of more than 240 km/h, or 149 mph (the specific rating can be found in the service description).
- 4) "18": This number indicates the diameter of the wheel on which the tire should be mounted, generally in inches. These are usually whole numbers but can also be half-inch increments, such as "16.5," or in millimeters, as in "390."

¹ <http://www.caranddriver.com/reviews/how-to-read-a-tire-sidewall-feature>

² <http://www.gm.ca/gm/english/services/goodwrench/tires/basics>

- 5) **SERVICE DESCRIPTION:** These numbers and letter together are called the service description. The numbers indicate the tire's maximum "load" rating, or the amount of weight the tire can bear ("93" stands for 650 kilograms, or 1433 pounds), and the letter denotes the speed rating, or how fast the tires can safely rotate ("W" means 270 km/h, or 168 mph). The lowest rating typically found on passenger-car tires is "Q," which means 99 mph. The highest, "Y," is good for 186 mph, and when enclosed in parenthesis, as in "(93Y)," it means "in excess of" 186 mph. These values are determined by tire-testing machines in a lab, and the decoded load rating is also listed elsewhere on the tire.

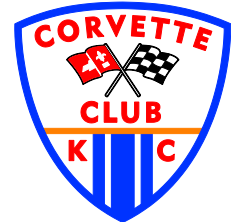

- 6) **RED DOT:** Here's a long-held myth that can be put to rest: It doesn't help in the balancing process to align the "heavy spot" of a tire—often indicated with a red dot—with a wheel's valve stem when mounting. Aluminum wheels are now the norm, and the valve stem is no longer the de facto lightest point.

Rating Symbol	Maximum Speed (km/h)
Q	100 (160)
S	111 (180)
T	118 (190)
U	124 (200)
H	130 (210)
V	149 (240)
W	168 (270)
Y	186 (300)
(xxY)	Over 186 (300)

Load Index	Pounds	Kilograms
75	853	387
76	882	400
77	908	412
78	937	425
79	963	437
80	992	450
81	1019	462
82	1047	475
83	1074	487
84	1102	500
85	1135	515
86	1168	530
87	1201	545
88	1235	560
89	1279	580
90	1323	600
91	1356	615
92	1389	630
93	1433	650
94	1477	670
95	1521	690
96	1565	710
97	1609	730
98	1653	750
99	1709	775
100	1764	800
101	1819	825
102	1874	850
103	1929	875
104	1984	900
105	2039	925

- 7) "200": The tread-wear grade is a relative figure based on the rate of wear of a tire during a 7200-mile on-vehicle test compared with that of a reference tire. The higher the number, the longer it will likely last. "300" indicates that the tire should last three times longer than the Uniroyal reference tire, which scores 100.
- 8) "A": A tire gets a seemingly uninformative traction grade ("AA," "A," "B," or "C") based on how much grip it generates in a straight-line test in which the tire is dragged at 40 mph across a wet surface without being allowed to rotate at all.
- 9) "A": This letter indicates a tire's ability to dissipate heat. As heat increases dramatically at high speed, this is, in effect, a second, less precise speed rating. "A" means the tire can withstand speeds over 115 mph, "B" is for between 100 and 115 mph, and "C" means between 85 to 100 mph.
- 10) "M+S": This stands for "mud and snow" and simply means that the tire has more space between the treads, which should help to facilitate traction on soft surfaces.
- 11) "MOUNTAIN SNOWFLAKE": Unlike the M+S rating, this icon indicates that a tire has met a minimum performance requirement in snow testing.
- 12.) ORIGINAL EQUIPMENT (OE) MARKING: These letters—or a symbol—indicate that this is the automaker-specified version of a tire that came as a car's original equipment. These tires can often be a very different blend of rubber compound compared with the off-the-shelf variety of the same tire, even though the tread pattern is identical. Examples of OE markings: General Motors—all have a TPC SPEC number; BMW—most have a five-pointed-star symbol; Mercedes—some are emblazoned with "M0"; Porsche—all have the letter "N" followed by a number, i.e., N1, N2, etc.
- 13) TIRE CONSTRUCTION MATERIALS: This is a required and self-explanatory list of the reinforcing materials and number of layers (in both the tread and the sidewall) that are molded into a tire's rubber for reinforcement.
- 14) DOT LABEL: Every tire sold in the U.S. must have U.S. Department of Transportation (DOT) labeling. The first two characters indicate the factory of manufacture, and the next five or six are manufacturer-specific jargon (for tracking purposes, as in the case of a recall). The last four numbers give the date of production (the first two indicate which of 52 weeks, and the second two, the year). The European equivalent of the DOT code may also be present (it starts with an "e"), although fewer manufacturers are printing both on a tire's sidewall (to prevent gray-market shipments when currency exchange rates fluctuate). If this string of numbers ends with "-S," it means the tire complies with European noise regulations.

C4 Production Data³

Year	Production	Notes
1984	51547	Fourth generation (C4) begins; hatchback body; digital instrumentation L83 engine continued from 1982.
1985	39729	More powerful and fuel efficient L98 engine introduced.
1986	35109	First convertible since 1975. Third brake light, antilock brakes, and key-code anti-theft system are new.
1987	30632	Callaway twin-turbo offered through dealers with GM warranty.
1988	22789	New wheel design; all white 35th Anniversary special edition coupe.
1989	26412	ZF 6-speed manual replaces Doug Nash 4+3.
1990	23646	ZR-1 is introduced with DOHC LT5 engine. Interior redesigned to incorporate drivers-side air bag.
1991	20639	Restyled exterior; last year for the Callaway B2K twin turbo.
1992	20479	New LT1 engine replaces the L98; Traction control is standard.
1993	21590	Passive keyless entry is standard; 40th Anniversary special edition in Ruby Red.
1994	23330	New interior including passenger airbag. LT1 engine gains mass air flow metered SFI.

1995	20742	Last year of the ZR-1; minor exterior restyling; Indy Pace Car special edition.
1996	21536	Optional LT4 engine with 330 bhp (246 kW). Collector's Edition and Grand Sport special editions. First year with OBD II diagnostics.

Judging Guidelines

This is a judged show. You will be judged on how clean your car is, inside and out. Your car will not be compared to the car next to you.

This year we are awarding First, Second and Third Place awards, therefore judging will be more stringent in all areas.

When your car is ready to be judged, place the “Ready to be Judged” sheet on the dash and open the driver’s and passenger’s windows. Put **COMPLETED** judging sheet on driver’s seat.

Hood **MUST** be open or 25 points will be deducted
Hatch/Trunk (where applicable) **MUST** be open or 2 points will be deducted
Judges will open driver’s side door if not already open/ajar.

The following is how your car will be judged:

Exterior:

Cleanliness (dirt, dust, bugs, tar, wax residue) Windshield, mirrors and back glass (free of smudges). Exhaust Tips. No deduction for paint chips or chips in windshield.

Wheels & Tires:

Cleanliness of wheels (free of dust, dirt, smudges, road tar).

Cleanliness of tires (reasonably clean, free of blemishes, free of stones).

Cleanliness of wheel wells (free of dirt, sand, gravel).

Interior:

Cleanliness of general interior (free of dirt, sand, debris).

Floor Mats (free of dirt, sand, debris).

Cleanliness of seats, dash, visors (free of dirt and dust, reasonably maintained).

Windshield, rear view mirror, back glass (free of smudges).

Engine:

Cleanliness of engine (free of oil, dirt, sand, smudges, dull or unpolished trim work).

Cleanliness of engine compartment (free of oil, dirt, smudges).

Cleanliness of frame rails (free of sand, rock, dirt).

Cleanliness of electrical harnesses and hoses (free of oil, dirt, smudges).

Judge’s Decision Is Final

**LET'S TAKE A TOUR OF
KANSAS CITY AIR ROUTE TRAFFIC CONTROL CENTER
250 South Rogers Rd., Olathe, Ks**

**Saturday, August 20, 2016
11:00 am**

Have you ever wondered what it's like to direct and control the massive Air traffic system; to tell airline pilots when to take off and when to land? Well here is an opportunity to see the inter-workings of the men and women that make our air traffic control system work. Located in your backyard is 1 of 22 facilities in the U.S. that is responsible for the expeditious flow of Air Traffic. This facility is ranked 12th in handling the volume of Air Traffic in the nation.

During this visit, you will get an opportunity to:

- Sit with controllers as they work live traffic (time permitting)
- Visit the Traffic Management Unit (the unit that manages traffic for the National Air Traffic System)
- Find out how weather is forecasted for the Controllers.

This tour is approximately 2 hours depending on the participation of our members.

Because this is a secure government facility all visitors must identified prior to visiting. Therefore, if you would like to attend this event, please submit your full name and US Citizen status to Clarence Hill at dveeus11@gmail.com NLT August 17th. Also, all participants should be at least 18 years old.

We will plan a lunch stop after the tour TBA. Hope to see you there!

20th Annual Summers End Corvette Show ROGERS Arkansas

AUGUST 26 TH & 27TH, 2016

Come sign up and join Joe Campbell & other CCKC members for a relaxing weekend trip to Rogers Arkansas to participate in one of the premier corvette shows in the Midwest. It's only about 200 miles south of KC on Highway 49 (was Highway 71). Our host hotel is the Holiday Inn & Convention Center in Springdale AR. A special rate of \$91 per night is available for the show by calling 1-479-751-8300 or 1-877-410-6667 (please reserve early as the rooms with the special rate do sell out!).

Enjoy a leisurely drive to Arkansas, with a stop at the famous Macadooles. Spend a laid back relaxing Friday afternoon with over 150 corvette enthusiasts, enjoy a cookout, share a few war stories, relax with the live entertainment and detail your corvette or enjoy one of the many tours in the area including the world famous Crystal Bridges Museum of American Art. Saturday August 27th display your corvette at the show in Pinnacle Hills Mall in Rogers (14 classes), ladies enjoy the fashion show at Dillard's then cap off the evening with the award banquet and dance with the Mike Mayberry band. Additional details at www.nwacorvetteclub.com

Kansas City Cars and Coffee cruise

August 27th from 08:00-10:00

Organizers: Bob and Terry Henn

This is a monthly event open to all types of cars. The July event had over 400 cars of all styles, types, vintages, and conditions. The Honda Club came with a bunch of S2000's, but we need to show everyone what an American sports car is all about.....the Corvette! A row or two of gleaming Vettes would be perfect for the August event. What say we show them what American muscle really is?

The event runs from 0800-1000 and there is no need for extensive detailing and prepping. Some of the cars are filthy rat rods while some others are pristine Ferraris, with a lot of cars in between.

We will meet at the McDonald's on the corner of Metcalf Ave and 119th Street in Overland Park at 07:15 and depart promptly at 07:30 to drive about 500 feet to the Rosana Square parking lot. We need to get there well before 0800 to ensure we can park next to one another.

Free coffee, donuts, juice, and water are provided by Oakes Automotive. No entry fee. Can you ask for a better deal?

If you're still hungry after the event is over, we can go out for breakfast.

If you have any questions, email Bob Henn at bobhenn@kc.r.com or call 913.302.0833 mobile.

Here is a link to the KC Cars and Coffee website: <http://kccarsandcoffee.com>

Terry and I look forward to having a great time and seeing you there.

Afternoon Track Sessions |

Registration Opens
AUGUST 1st

*Visit our website for
up-to-date information
regarding the schedule of
events – www.lggpr.org*

The Track Event - A Group for every driver...

Group A - Top speed of 60 mph.

This is the gentlemen's group. There will be spirited driving if you like, but at a slower, more relaxed pace. Drive here if speed isn't your thing, if you don't have experience on a track, if you don't want to be pressured by cars behind you, if your car cannot go faster than 60 miles per hour, or, if your passenger is going to be shrieking in your ear that you are going too fast!

Group B - Top speed of 80 mph.

Drive here if you want spirited driving with some cars at the limit of their performance, at 80 miles per hour on the straights. Also consider this group if you have a powerful car but limited track experience. If your car is a classic with an engine with a displacement of 1,500 cubic centimeters or less this may be your group. Remember, as with all groups, there are more corners than straights.

Group C - Top speed of 100 mph.

This group is for cars that can easily get up to 100 miles per hour, have good handling and brakes, and have drivers that want to test their skills. Cars in this group will be powerful classic sports cars whose drivers have track experience. Some V6 engines may be at home here as well as V8's that will run conservatively. You will be pushed by cars behind you, and you will be passed by some.

Group V - Vintage Race Cars.

This group will feature vintage race cars from the past. Cars in this group will be the old, fast sports cars. Speed will not be the focus of this group. It will be a chance to celebrate some of the fantastic cars of the track's history and time period. The cars will be hand picked by our organization.

Group H - Historical Sports Cars.

A very unique group of factory stock cars produced prior to 1960. These are slow sports cars. This group is by invitation only, but if you think you have a car that would represent well, please contact us.

Group E - Exhibition Race Cars.

This is an exhibition group reserved for race cars and drivers with racing certifications. This group is by invitation or application with acceptance only. This group will operate under more stringent rules aligned with established racing event rules – even though this group will not be racing!

More on our website – www.lggpr.org
