## ROAD TRIPPIN'...YEAH...

9 Days, 3,450 Miles, 7 States and 62 degree variance...all at the wheel of our 2016 yellow coupe!

Our itinerary—north on I-29 to I-90 in South

Dakota. A quick visit to the Bad Lands, then on into Montana and Wyoming and continue west on I-90 through multiple mountain ranges and passes to Coeur 'dAlene, Idaho.

*Two versions of beauty...*

Once you head west on I-90 into Montana, you pass more RVs than semis and you often are the only car on the road as far as the eye can see! We set the cruise control in the high 80's and motored for miles on end!

*Vrooom...Vrooom*

Before heading home a detour cruise through Yellowstone Park where the temperature dipped to 37 degrees! We encountered Bison walking the opposite direction and had to crawl by them in first gear. These monstrous animals walk so close their fur touches the car. And from them...not even a nod of appreciation for our fine car!

*(Continued on page 2)*

**Hello veterans!** Thanks to all who submitted your service pictures! Due to the amount of content in this double-issue, we will celebrate you and your service in the November 2018 issue in our Special Veteran's Day Salute! Many of you also agreed to share your service stories. Debbie will be contacting you for interviews in September and October.

## Submission Mission

Any information for publication in **Hi Beams** should be submitted to the editor by the 15th of the month. Please spell check all content prior to submission. Any items from other sources (i.e., websites, etc.) should be accompanied by an attribution. Please ATTACH (not embed in the file) all photos and flyers in their NATIVE format.

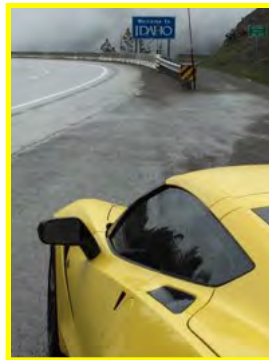

## Photos of Events Needed!

Come on photogs! Please don't think twice...take that shot and report it. We know you're having fun...show it! Please make sure to provide photo captions that accurately describe the "people, places and things!"

The entire ride into Cody we were the only car on the road. We passed through canyons with sides so steep we had no phone reception, no satellite radio, no On-Star connection. We were unplugged and right at that moment our car showed a low tire pressure warning! Luckily it was a slow leak or our Vette might have to

*Yellowstone Snow*

*Idaho Rain*

serve as a camper!

A few museum visits later, we cut across beautiful, empty 2-lane back roads through Colorado and Nebraska to find our way home! About lunch time we hit a small town in no-where Colorado, literally 50 miles either direction from any other food or gas station. There, as if

it was an oasis—we found a craft brewery and restaurant. Eureka!

Our C7 proved to be a comfortable travel car. Another unexpected pleasure was that our little coupe was a big hit at every stop. Even the workers in construction zones gave us that long, yearning look!

*Where's The Hitching Post?*

At the start of this adventure, we weren't sure our Corvette was the right car for this long—and often remote—trip. We are certainly assured of it now and can't wait to get...On The Road Again!

## New & Old Business

### The Corvette Showcase Show & Shine at Summit Fair Sept. 8, 2018. Update by Lee & Janice Burkhead.

Lee Reported that the show is on schedule and very similar to the Zona Rosa Show. There are sign-up sheets for volunteers to work the show on the table. All members should have received an email of the registration package. Janice reported that there will not be a silent raffle this year, but there will be a major raffle for various prizes. The more tickets you purchase the better your chances of winning.

**Jerry Keith** made the plea for parkers. He needs at least 10 volunteers. There will work 1 ½ hour shifts giving all time to detail their cars before the judging. WE need to have Walkie Talkies for those helping with the parking. He recommends the brand of Midland as they are made in Kansas City. They can be purchased at Target.

**Janice Burkhead** stated there will be a fashion show at Macy's. There will be wrist band tickets for entrance into the fashion show. The Friday night event will still be held at Tiffany Springs. There will be food trucks from 11 am – 2 pm on the day of the show.

## LEVENSON'S LESSONS

### C5 Acid Mat Protection

C5 owners know the battery sits right above that all important main computer system. Protecting that system from a costly battery acid leak that could wreck ALL KINDS OF HAVOC costs no more than the CCKC raffle tickets! That's right for just \$5.00 you can purchase an Acid Mat from Battery Mart or other retailer.

### C6 Windshield Vibration

"Good, Good, Good Vibrations!" this is not. For C6 owners, GM missed a clip when they assembled all the C6's! You can cruise a while without it, but as the car ages, that extra anchoring can be useful. You can order the missing clip from your GM Dealer. The cost is about \$8.00. The image to the right shows the clip, where it should be positioned and the GM part number.

### C7 Pulsating Brakes

Does your brake pedal feel like it's vibrating when you apply the brakes? It could be a brake pulsating problem that SOME C7 owners are experiencing.

GM has not issued a recall (not model-wide) but has issued Service Bulletin #16-NA-170. Your dealer will fix this problem—free of charge—by removing your 2-part rotor and replacing it with a single rotor.

#### TSB #16-NA-170

— PGMAR 2017-07 / 10

#### 030000 BRAKES (PWS) bulletin for the 2014 CORVETTE

This technical bulletin provides a procedure to replace either the front or rear rotors for the condition on a pulsation and/or vibration when they apply the brakes.

NHTSA has assigned ID #10108606 to this bulletin. You can get [more detailed information](#) on how to fix the problem.

## Crusin' Culver's in July

Another beautiful night for the Culver's Cruise! The skies cleared and 26 members were present as we socialized and raffled off three Corvette Museum raffle items—two coasters and a coffee mug.

Our young friend Luke Sherard has been attending cruise nights for the past three years and used to ride his bicycle to Culver's and place a Corvette model on the seat. He has also attended every Hendrick's and Zona Rosa show for

several years.

After the June cruise, Steve Garrett and Bob Henn became determined to make Luke an honorary member of CCKC. Steve had an honorary nametag made and Bob presented it to Luke at the meeting.

He was beyond excited to be recognized by the Club. Look for Luke proudly wearing his nametag at the August Cruise.

Two cruises remain before the season ends. We hope to see you there!

## CCKC Two-in-One - Day Cruise

### Tour of NOAA (National Weather Service) in Pleasant Hill, Mo Wine Tasting and (Optional Tour) of Stonehaus Winery in Lee's Summit, Mo Saturday, September 1, 2018

We will stage at the \*UMB Bank Parking Lot at I-435 & State Line at 9:30am. Depart promptly at 10:00am heading east to Pleasant Hill, Mo to the National Weather Service for an educational tour.

The National Weather Service plays an integral part in our lives. Most are familiar with the weather forecasting, sirens going off and yes, the dreaded news broadcast of the local weather forecast. The National Weather Service is a branch of National Oceanic and Atmospheric Administration known by the acronym NOAA. We are very fortunate to have a branch located in Pleasant Hill, Missouri. On our previous tour of the Air Traffic Control facility you were given a brief look at how weather impact Aviation and the planes you fly on. Now you can get a up front briefing on how weather affects you locally by attending this specially arranged tour.

Located at 24607 N 7 HWY, Pleasant Hill, Mo.

Lunch will be at **Guido's Pizza** which is ½ mile south on Hwy 7 from NOAA. They offer lunch specials for less than \$10 which includes 5" pizza, salad & drink. We ate there while visiting Pleasant Hill and found the pizza and especially the crust wonderful.

After lunch we will travel north on Hwy 7 to Colburn Road to **Stonehaus Winery**. There we will have a wine tasting and optional tour of their wine making operation. We can purchase bottles of wine and go sit on the patio. Assorted cheese and crackers will be served as you relax, drink your wine, and enjoy the rest of the day.

#### Route we will be taking for the trip

\*Staging point could change due to unpredictable road construction. We will keep everyone advised.
